## dolphin copy progress windows?

## dolphin copy progress windows?

by Bugzilla from chusty@attglobal.net :: Rate this Message: Reply | Reply to Author | View Threaded | Show Only this Message

opensuse 11.1

When I d-n-d a file from one directory to another one small windows with the progress of the copy shows but disappears before the copy ends. How can I make it to stay?

-=terry=-

kde 4.2.1
